

Section 1: Identification of the Material and Supplier

Product Name : Hydrolube C
Product Code : 140801
Other Name :
Area of Use : Cable Lubricant
Usage Directions: Refer to technical data sheet
Company Name: DS CHEMPORT (AUSTRALIA) PTY LTD
ABN: 68 006 335 048
Company Address: 41 Jesica Road
Campbellfield, Victoria. 3061
Phone : (03) 9357 0933
FAX : (03) 9357 0944
Emergency Number: Technical advice 0419309257

Section 2: Hazards Identification

Classified as hazardous according to Australian GHS criteria. Not classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code for Transport by Road and Rail

GHS Signal Word: WARNING

Hazard Categories:

Hazard Statements: H303 May be harmful if swallowed
Precautionary Statements: P312 Call a POISON CENTER or doctor/physician if you feel unwell
UN Number: None allocated
DG Class: None allocated
Subrisk: None allocated
Packing Group: None allocated
Poison Schedule: None allocated
Hazchem Code: None allocated

Section 3: Composition

NAME	CAS NUMBER	PROPORTION
Chloromethylisothiazolone/methylisothiazolone	55965-84-9	<0.06
Non-hazardous Ingredients	-	Balance

Section 4: First Aid Directions

Eye: Remove contact lenses if worn. Hold eyelids open and flush thoroughly with water for at least 15 minutes. Hold eyelids open and flush with water until irritation stops. If irritation persists, seek medical attention

Doctor Treat symptomatically
Advice :

Section 5: Fire Fighting Measures

Extinguishing Media: Not applicable

Fire Precautions: Fire risk very low. No special procedure required. Product is not combustible

Hazchem Code: None allocated

Section 6: Accidental Release Measures

Spills: Clean up spill immediately. Spills on the floor may be slippery. Spills should be absorbed with sand or other suitable material

Section 7: Handling and Storage

Storage: No special storage or transport requirements necessary. Keep containers closed when not in use

Precaution: Use only for its intended purpose and observe established practices of industrial hygiene. Do not get on skin. Do not get in eyes

Section 8: Exposure Controls/Personal Protection

Exposure Limits: None

Ventilation: Not required

Respiration: Not required

Other Clothing: Not required

Gloves: Use of gloves recommended

Goggles: Use chemical splash goggles or shield

Section 9: Physical and Chemical Properties

Appearance: Clear green, viscous liquid

Boiling Point: 100 C

% Volatile: 93 % Min.

pH: 6 - 7

Flash Point: Non flammable

Specific Gravity: 0.99-1.00

Solubility: Miscible

Odour: Mild, pleasant

VOC:

Section 10: Stability and Reactivity

Non flammable

Section 11: Toxicological Information

Eye: This product can cause slight to moderate eye irritation

Skin: This product may cause slight skin irritation

Inhaled: This product is not considered to be harmful via inhalation

Ingested: This product is not considered to be harmful via ingestion

Chronic: This product has very low toxicity and should not constitute a health hazard under normal conditions of industrial use.

Section 12: Ecological Information

Safety Data Sheet

Mobility: This product is soluble in water

Persistence: Classified as readily biodegradable according to Australian Standard AS4351

Ecotoxicity: Not toxic to aquatic organisms.

Section 13: Disposal Considerations

Disposal: No special method required. Scrape up majority of product and dispose of in accordance with local regulations of non-hazardous materials

Section 14: Transport Information

UN Number: None allocated

Packing Group: None allocated

DG Class: None allocated

Subrisk: None allocated

Proper Shipping

Name:

Initial Emergency Response Guide Number : 0

Section 15: Regulatory Information

Hazard Categories:

Hazard Statements: H303 May be harmful if swallowed

Precautionary Statements: P312 Call a POISON CENTER or doctor/physician if you feel unwell

Poison Schedule: None allocated

Section 16: Other Information

Date of preparation or last review: 15-Nov-16

Version: 4

This MSDS summarises at the date of preparation or last review our best knowledge of the health and safety hazard information of the product, and in particular how to safely handle and use the product in the workplace. Since DS Chemport (Australia) Pty Ltd and its subsidiaries cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this MSDS in the context of how the user intends to handle and use the product in the workplace.

If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this company.

Our responsibility for product as sold is subject to our standard terms and conditions, a copy of which is sent to our customers and is also available upon request.
