

10m Premium 2 Core Speaker Cable

04MM-SPK15-10

For the Best

The 04MM-SPK15-10 is a 16AWG figure 8 speaker cable made from high-quality 100% oxygen-free copper. The cable features a red stripe tracer indicator on one side to easily identify and connect without accidental cross-pol. The SPK15 is well suited for connecting surround sound floor, wall, and ceiling speakers. The cable comes in a convenient and cost-effective 10m pack perfectly suited for those requiring short-range speaker connections without buying a full 100m roll.

Features and Benefits

- » 10m length
- » 100% copper, oxygen-free
- » Includes a red stripe tracer to identify polarities
- » Suitable for high-powered surround sound systems
- » 16AWG figure 8 configuration
- » Also available in 100m roll (04MM-SPK15-100)
